INTRODUCTION

The existence of Islamic Boarding school has been there since hundreds of years ago, and it has been proven to successfully formed a private-private man who have good morals, good, beneficial for the people around him, self-contained and does not easily waver in their real life that is constantly changing (Hafidz, 2021). According to (Mulyasa, 2003) leadership models of the boarding school has special characteristic according to the culture and values of the religious Islamic. Respect for the teacher (Kiai) by the students is a necessity. Respect for teachers has become a tradition of students in a boarding school to obtain blessings in order to learn science.

The leadership of the boarding school taught respect for the teacher, it is understood as the practices of education that has the justification of religious very strong (Ahmad & Ogunsola, 2011; Egel & Fry, 2017). In an effort to meet the vision and mission of education in the boarding school, then the leaders need to meet the requirements in accordance with the traits and character of the boarding school (Fathih et al., 2021).

The phenomenon of modern times this happens the development of the science of management and leadership more dynamic as well as the use of technology is more advanced that affect people's lives (Sari Marbun, 2013). A consequence of education in boarding schools need to adapt to the progress while maintaining the distinctive features and characteristics of the boarding school (Ramdani & Ihsan, 2021). The ministry of Religious affairs (2001), make provision that the base education of the boarding school is a faith and devotion to God almighty. Model management is expected to be a reference that the actual cadre part in boarding school permanently from the impact of a system. The impact of the cadre to be, (1) the shape of the cadre system, (2) the management cadre, (3) the cadre with the implementation, (4) the evaluation results of the cadre, (5) all results are involved.

Moral degradation and the decline of religious understanding in the community, and the presence dai-dai impressed not competent in conveying the science of religion. Where lately the rise of the religious understanding of the narrow views and ideological tran national expansive in spreading the understanding of religion that is stilted.

METHOD

In this study, the authors use a qualitative approach. According to (Sugiyono, 2008) qualitative research is a research method which is based on the philosophy postpositivism, is used to examine the condition of natural objects where the researcher is the key instrument, sampling the source of the data is done by purposive, collection techniques with triangulation, data analysis is inductive/qualitative, and qualitative research results further emphasize meaning rather than generalization. In addition, according to (Creswell, 2012) that Descriptive research is a study designed to obtain information about the status of symptoms at the time the research is done.

Data collection techniques are the most important step in the study, because the main goal of the research is to obtain the data. In this study, the data collection methods used were interviews with several informants, observation, and documentation. In qualitative research, which became the instrument or tool of the research is the researcher itself so that the researcher must be “validated”. Validation of the researchers, include; understanding of qualitative research
methods, the mastery of the knowledge of the field under study, the readiness of researchers to enter the object of research both in the academic and the logic (Sugiyono, 2008).

So the researchers themselves directly into the observer, researcher, and analysis of the activities of Management Education in the District of Gunungputri. In accordance with the direction of the research is about the description of Charismatic Leadership-based Approach to Learning the Friendly Students, to get the data, and a description that is clear, precise, and accurate for the provision of education in Islamic Boarding School Fauzan, Kec. Sukaresmi, Kab. Garut.

The technique of data Analysis begins by conducting in-depth interviews with informants. After conducting interviews, the researcher made a transcript of the interview with how to tidy up the results of the interview then write down the words as appropriate. After the researchers write interview results in a transcript, the next researchers to make data reduction by means of abstraction, i.e. take data in accordance with the research context and ignore data that is not necessary. Then from the data that have been collected in the reduction (process selection), Data Presentation, drawing conclusions/verification data, in triangulasi kan and checking the validity of data.

Charismatic leadership is built in a very long, detailed begins from the start of the management of financial, management, public relations, construction and maintenance of infrastructure, program the cadre of students, job description rais or the Chairman of the Madrasah, guarantee the quality of the teachers or preachers in every subjects, the leadership of al-mundhir or known term Manager of the Unit, the responsibility ndiaye or is understood as the personal assistant Kiai, the authority of the Assistant or Deputy Shaykh, and parenting in particular that carried out by Kiai as the Primary caregiver.

Milestones SKL base in each of the pesantren salafiyah, which was enacted in islamic boarding schools throughout Indonesia, Java in particular, have a similarity methods in the study of the book for each of the wording (text) the material of knowledge. The intent from the similarity of the methods of Pesantren Fauzan apply the rule utawi – iki – iku, a principle to understand by using the approach of grammar (Nahwu and Sharaf) strict, for all students in Pesantren Fauzan.

Milestones SKL advanced, namely through the method of mnemonics in teaching science-science. When students learn the science of monotheism in the boarding school, usually applied to memorize the poems contained in the book of tauhid it with a pattern nadhom, for example the book of *Aqidat al-Awwam*, *Nurudz adz-Dzalam*, and the book of *Nadham* other. In the Boarding school Fauzan, Sukaresmi, Garut, a method of memorizing is very encouraged, especially to understand the contents of these books, namely the books of a local boarding school.
The achievement of Graduation Standards (SKL) which supports Learning Approach based Friendly Santri, Pondok Pesantren Fauzan illustrated in the diagram below, for example:

The second proof is in the Chapter of Social Manners. Social manners that referred to the form of the attitude of the boarding school institutionally represented by the Kiai in the Boarding school Fauzan, which is not pragmatic. Not pragmatic in the sense, the initiation of development as well as responsible development in the environment in certain conditions, the Pesantren Fauzan has become a habit hand of the embodiment of its construction by the boarding schools, where the management of the budget in nahkodai boarding school for self-sufficiency, it is reasonable when the society around really recognize and assume they are part of a large family boarding school, or the part of the students Pesantren Fauzan.

Figure 4: Implementasi Kecerdasan Sosial

Evidence of a third, that of the Boarding school Fauzan consistent in the application of learning-based friendly students, look at the attitude of the community around, although different villages or different sub-districts, namely the existence of a reverent attitude of society to the ‘Ulama (Clerics at the Boarding school Fauzan) in solving the Problems of Socio-Political.

When the people in one village dualism kepeminpinan or in an area of the vacancy occurred leadership review formal, then the Masyayikh and or representing Pesantren Fauzan used by the public as a problem solver, as well as a supervisor to stop the conflict and dampen the divisions in the community. Kiai work together with elements of the apparatus related to assisting the community organized the selection of candidates to the determination of the election results are made public. The students directly and indirectly observing at the same time...
feel the presence of the recognition of the community, that the place they (the students) studying as an institution that has always concrete in giving the solution of the problems of socio-political.

![Figure 5: The Implementation of Value-the value of the Boarding school to the Community](image)

The proof of the fourth, the boarding school Fauzan consistent in the rules: “the Daf‘ul mafasid munaddamun ‘alaa jahil mashabib”, which means “Resist harm takes precedence over Taking a benefit.” Rules such as the main basis to equip the students to be Tawashut (siger middle), Tasammuh (tolerant) and Tawazun (clever in considering something), so that when they are present and falls in the middle of the community can be accepted by all circles.

Pesantren Fauzan coherence with community organizations Nahdhatul ‘Scholars, in the role of bargaining with the authorities on the prevention of kemafsadatan through the power, the better diparlemen, support voice as well as attending the invitation of the government in discussing the program management of the State at the local or at the national level. This is a plus for the students later in the aspirations of the political and/or when you intend to participate in its role as part of the power in the power stage that is conducive to remain not out of the rail Islamic values.

Concrete evidence that Pesantren Fauzan impose a learning approach based friendly students that is very adaptive to the changing times. 150 years ago during the Dutch colonization in Indonesia is very entrenched, to post-independence, Pesantren Fauzan never held a Formal Education with the reason at the time it was still a very large possibility of Institutions of Formal Education many of the stained Confidence in the West which is contrary to Islam and the worry
of damaging the foundations of adab and akhlaq is good and right seseuai with the Image of the to-Fauzan.

Different when she's very possible, supported by Human Resources Pesantren Fauzan which is more than enough, adequate in quantity TBSP him quite a lot. Pondok Pesantren Fauzan, Sukaresmi, Garut, since 1990 has had a pattern of formal education, and in 2015 opened a Flagship Program called the Program Takhasus, namely the scale of priority is the students who are dikader be ‘scholars, with science at the end, students obtain a national Diploma at once diploma kepesantrenan. Students Fauzan really served and directed as well as facilitated to achieve the certainty of their future in the field of Islamic sciences comprehensive.

Judging from the evidence of satisfaction of the students and parents of students in particular, the occurrence of regeneration force students continuously, hereditary, sustainable among alumni family, even the alumni still actively follow Assembly special Science for Alumni or even General Assembly held Pesantren Fauzan. Pondok Pesantren Fauzan become the choice of the main level of education for her children, a brother and sister from the sons of alumni, to the grandchildren, keep scrolling to several generations until today. Many of the alumni, true already has a strategic role in the community, when you return to fauzan in order of friendship or following assembly program general science, they never change unless fixed portray themselves as students at Fauzan. It is necessarily to be the main proof, that during this time and still continue to take place, where Pesantren Fauzan consistent enforce-based learning friendly students.

From some of the above description of the principles of education, which is the foundation in an education, all of which have from the side of the more and the less. Principles of education which the author described above give birth to color different education, and is a diversity in the world of education, as well as a characteristic any educational institution. (Cyntia: 2012). The interpretation of subsequent research, the authors expose the descriptive data related to the description field of the boarding school Fauzan in the development of Islamic education in the community and students in pondok pesantren Salafiyah Fauzan precisely in the Village of Sukaresmi Garut.
CONCLUSION

The implementation and Application of Charismatic Leadership based Learning Friendly Students.
